Editor of JMLR

Dear Sir or Madam,

This submission is intended for the machine learning open source software section. Our software is a Python library to tackle the curse of imbalanced datasets in machine learning. The recent popularity of this project strengthen us in our decision of disseminating the proposed package. This toolbox is released under an open source MIT license and is hosted in GitHub:

`https://github.com/scikit-learn-contrib/imbalanced-learn`

The attached version to be reviewed is the `0.1.3` release and is also attached in a `tar.gz` archive. A five pages description of the software is also provided emphasizing on the benefit of this software for machine learning application as well as the project vision.

Thank you for your time and consideration.

We look forward to your reply.

Sincerely,

G. Lemaitre, F. Nogueira, and C. Aridas
